# Navigation methods/tools

When invoking a navigation towards coordinates the following menu will be shown to select an appropriate navigation method/tool.

The following table provides an overview of the different methods/tools supported. Some items are only shown if the corresponding tool is installed. You can customize the items shown in this menu in the [settings](#).

Name	Description
Compass	Starts the c:geo built-in <a href="#">compass</a> .
Radar	Starts apps supporting a radar functionality, such as <a href="#">GPS Status &amp; Toolbox</a> . A radar is similar to a compass but showing your position in the center and the target position in relation to this.
Map	Opens the c:geo <a href="#">map</a>
Locus	Starts <a href="#">Locus</a> to display the coordinates on the map.
Navigation (Driving)	Starting <a href="#">Google Maps</a> turn-by-turn navigation using the preferences for a car route.
Navigation (Bike)	Starting <a href="#">Google Maps</a> routing turn-by-turn navigation the preferences for a bike route.
Navigation (Walking)	Starting <a href="#">Google Maps</a> routing turn-by-turn navigation the preferences for a walk route.
Navigation (Transit)	Starting <a href="#">Google Maps</a> routing turn-by-turn navigation the preferences for a route with transit providers.
Street View	Start <a href="#">Google Street View</a> on the coordinates.

<b>Name</b>	<b>Description</b>
OruxMaps (Online)	Start <a href="#">OruxMaps</a> using online turn-by-turn navigation.
OruxMaps (Offline)	Start <a href="#">OruxMaps</a> using offline turn-by-turn navigation.
Sygc (Walking)	Start <a href="#">Sygc</a> turn-by-turn navigation using preferences for a walk route.
Sygc (Driving)	Start <a href="#">Sygc</a> turn-by-turn navigation using preferences for a car route.
OsmAnd	Start <a href="#">OSMAnd</a> offline turn-by-turn navigation.
Google Maps Directions	Opens <a href="#">Google Maps</a> to show a list of driving directions from your current position to the coordinates.
WhereYouGo	This item is only available for Wherigo caches and will open <a href="#">WhereYouGo</a> to download the needed cartridge and further navigate through the stages of the cache.
Pebble	Start compass on your pebble device using the <a href="#">Pebble Navigation</a> app.
Maps.me	Start offline turn-by-turn navigation using the <a href="#">maps.me</a> app.
Other external apps	This invokes other apps not explicitly supported by c:geo. Using this option will usually open an app selection dialog on your device presenting all apps capable of digesting links containing coordinates.
