Guide d'utilisation c:geo

Bienvenue sur le guide en ligne d'utilisation de c:geo !

Ce site est en cours de traduction

Nous considérons ce guide comme terminé mais nous avons besoin de vos retours. Si vous détectez des informations erronées ou manquantes, merci de [nous contacter](#).

Nous avons débuté la traduction de ce guide dans plusieurs langues. Nous avons besoin de traducteurs, si vous êtes intéressés et souhaitez nous aider [contactez-nous](#).

About c:geo

c:geo is an open source, full-featured, always ready-to-go unofficial client for geocaching.com and offers basic support for other geocaching platforms (such as Opencaching). It does not require a web browser or exports - just install it and start right away.

c:geo is only a client application for geocaching and is not associated with any specific geocaching service provider.

Getting started

- [Installation and update of c:geo](#) - How and from where to install c:geo and get updates?
- [c:geo device permissions](#) - Why does c:geo need the requested permissions on your device?
- [First steps with c:geo](#) - First start of the app and authentication of the geocaching services
- [Basic use of c:geo](#) - What is Geocaching and how to find your first geocache with c:geo?

Users manual

Main menu

- [Main screen](#) - The functions of the main menu
 - [Top bar menu](#) - The menu functions on the upper section of the main screen
 - [Live Map](#) - The live map of geocaches
 - [Nearby Search](#) - Search for caches in your surrounding
 - [Stored Caches](#) - Locally stored geocaches
 - [Search](#) - Search for Geocaches and Trackables
 - [Go to](#) - Direct navigation to arbitrary coordinates
 - [Global Cache Type Filter](#) - Filtering of cache types
 - [Status infos](#) - The status info shown on the lower section of the main screen
- [Settings](#) - Configuring the application

Geocaches

- [Geocache details](#) - Explanation of the cache detail pages
- [Logging of Geocaches](#) - Logging of your Geocaching finds

Trackables

- [Trackable details](#) - Explanation of the trackable page
- [Trackable handling](#) - Handling and Logging of Trackables
