Search function

The search menu provides several search functions as described below. All location and user based searches will provide a [list of caches](#) as result, whereas the geocode search and the trackable search will directly open the resulting [geocache details](#) or [trackable details](#).

Trackable

Identificação do trackable

Pesquisar por trackable

Basically all search functions will use all enabled geocaching platforms simultaneously and provide the result in a combined list across all geocaching services. This depends on the functions supported by the specific geocaching service as listed in [the service setting menu](#).

| Search Function | Description |
|---|--|
|  | Clicking this icon will load a list of your owned caches |
| Coordinates | Search for caches around coordinates provided. Refer to the Coordinate dialog for more information. |
| Address | Search for caches around a street address. We use the Google geo coding service to find the address and convert it into coordinates. |
| Geo Code | Search for a specific geo code in all supported platforms depending on the code prefix (e.g. GC77, OC1234). |

| Search Function | Description |
|-----------------|--|
| Keywords | <p>Search for caches starting with the keyword provided.</p> <p> A keyword search for all caches containing the keyword is currently not possible due to technical limitations.</p> |
| Found by user | Search for caches found by the username provided. |
| Hidden by user | Search for caches hidden by the username provided. |
| Trackable | Search for a trackable by using its public or secret tracking code. This search supports geocaching.com trackables as well as other trackable services (e.g, GeoKrety). |
